

Oven Baking Pizza Tray Aluminum Anodizing Oxidation Round Pizza Tray For Kitchenware

Picture Show:

This is customized products for pizza tools, below pictures just for your reference, you can choose any pizza tools or baking tools as you need, please kindly advise the details so we can quote the accurate price, thank you very much.

Ceramics Coating Pizza Lifter

1). Advance design allows experienced cooks and novices alike to get the pizza in and out of the oven with ease. No more worries about it sticking to the metal paddle or the pizza stone, or falling of the sides!

2). Unlike traditional metal or wooden spatula, there is no need for excessive flour, since special divots on nano-ceramic surface are designed to help release raw dough onto stone (IMPORTANT: for best results, watch the online tutorial video).

Stainless Steel Pouching Tower Tart Molds

- 1).PREMIUM MATERIAL: Made of 304 Stainless steel, high temperature, corrosion-resistant, not easily deformed, reusable and no rust
- 2). WIDELY APPLICATION: Ideal for creating tarts, cakes, mousse and desserts. Excellent for baking, layering, and molding. It is a good choice for hand-made cakes at home

Stainless Steel Cheese Grater With Hand

- 1).It is a very handy tool to work with as it is highly efficient in performance and very easy to clean as well. You can place it in your dishwasher for hassle-free cleaning. However, it's recommended to hand wash it using dish soap.
- 2).The single handle design fits comfortably in your hand for a splendid grating experience and allows for quick and efficient shredding. Its rubber handle fits comfortably in all hands. Just rest the base of the grater against a plate and grip the comfortable top handle for fast, high-volume, and immediate shredding.
